SUMMARY

Product design leader with 13 years building consumer and seller-side products that scale to millions — currently leading Guest UX for discretionary categories at Target. I specialize in pricing & seller intelligence, 0-to-1 platform launches, and design systems that compound team velocity. Previously shaped seller-side products at Meesho, BNPL at PayU, and B2B logistics at BlackBuck.

SELECTED IMPACT

- Shipped Meesho's **Crystal Design System** from scratch — now the single source of truth across [N] seller surfaces (desktop, m-web, app); cut new-feature design time by ~[X]%.
- Designed the **Pricing Intelligence Tool** at Meesho — adopted by [X]% of active sellers, drove [Y]% lower listing prices platform-wide and lifted GMV by [Z]%.
- Co-designed **LazyPay BNPL** 0-to-1 (discovery → checkout → repayment) — [X]M+ users acquired in the first [Y] months post-launch.
- Designed BlackBuck's **Auto-Recharge Plus** FASTag subscription — top-[N] revenue contributor at launch, protecting [X]K+ truckers from FASTag blacklisting.
- Hired and mentored [N] product designers across roles; built hiring loops, design rituals, and PM-designer expectation frameworks now in use at Meesho.

EXPERIENCE

Target — Lead Product Designer, Guest UX

Oct 2024 – Present · Bengaluru (Hybrid)
